DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Naoyuki, JP Patent No. 361150065 A.

Naoyuki discloses an automatic teller machine for blind person comprising the steps of: when a user arrives at the ATM, an infrared light sensor 41 detects this arrival, tells a message for guiding the specification of the type of transactions, and simultaneously displays functions of an operational key on a CRT5. If the user is blind, he reads braille of a braille seal stuck to the side of a transaction key, and depresses a card pay-out transaction key. With the key depressed a message for promoting the insertion of the card is outputted in a sound, and simultaneously displayed on a screen. At this time, if the movable pin of a movable braille device 43 for guiding a blind person is vibrated, the blind person can insert the card into the card insertion port with the touch of the vibrating movable braille device 43 (see figure 2).

Conclusion

Art Unit: 2876
